

**DETAILED ACTION**

***Election/Restrictions***

1. Claims 1,6-8,16 and 19-23 are allowable. The restriction requirement of Groups I and II, as set forth in the Office action mailed on 4/29/2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.**

2. Claims 9-15,17,25 and 26, directed to a method no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. The claims are **rejoined**.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*,
